Thanks Brett.

John mentioned that there are documents forthcoming from Spark.

I think it makes sense for me to get to see those first and figure out how long it will take to process understanding them and asking followup questions before we finalize the date I speak to the board.

Also, I think your response misunderstands my request to address the board. I am making this request per the Larkspur Corte Madera School District Community Relations policies that can be found at the link below. I understand you have chosen to address the initial complaint under the policies that govern complaints made against district employees. Therefore I am asking to address the board regarding the complaint per #7 in the document at the link below.

Please confirm receipt and provide a response to my request to address the board per the policies referenced above.

Thanks,  
Matt
