Hi Dr. Geithman,

I don't understand.

I was told by you in our June 12th meeting that the district was using the policies in place for complaints against district employees to process my complaint in the letter dated June 1st since you didn't have policies specifically in place to field complaints against an associated foundation.

If these policies are not the ones governing this process, why did you inform Ms. Ryba of the June 1st complaint immediately upon receipt? At the June 12th meeting, you indicated it was because you were required to inform her per the policies for handling complaints against district employees, which you had decided to use for this complaint.

Was the district using those policies at that time, but has now changed its mind? If so, why did you change your mind and when did you make that decision?

I believe the district should remain consistent with using the same policies it started its handling of the complaint with through its completion. Please indicate if that will be the case.

Best,
Matt
